The TW 7009 DVT is the new portable video entertainment by car, walking or at home.
The system consists of a main unit TV / DVD player MPEG4 / SD-USB with large LED screen 9 “LED Monitor + a 9”.
The reader is functioning autonomously with rechargeable batteries (or a network drive) and allows you to display on the LED screen DVD movies, Mpeg4 and multimedia files recorded on SD memory card and USB.
Also you can watch Digital Terrestrial TV Tuner DVB-T tuner (not usable while the vehicle is in motion).
To use the system in the car, simply install the two universal brackets with a convenient system for coupling / uncoupling on the back of the headrests. The player and the monitor must be connected to each other via the cable that allows the transfer of the signal from the player to the monitor.
Connect the system power from the cigarette lighter of the car and ... Enjoy your trip!
